Activity 2 | Article

Directions: Read the article aloud with your teacher.

Summer

This is probably everyone's favorite season. Tropical countries experience this season at its most. Summer is the warmest of the four seasons, falling between spring and autumn. During summer, the sky is mostly clear and the sun is high and days are longer as well as nights are shorter.

Most people from the countries that experience all four seasons, favor summer the most because it is the period when they have more time to go out. Most people are stimulated to be active and do more physical activities during summer season. People take advantage of warmer temperatures by spending more time outdoors during summer. Activities such as going to the beach and picnics occur during summer months. One of the most likeable periods of summer is summer break. Schools and universities typically have a summer break for students to rest and take advantage of the good weather and longer days. Summer is indeed the season when people are at the peak of their happiness and high spirited vibes, ready to explore the world.
